Who is this MBA for?

A flexible programme that allows you to study at any time, any place. For experienced managers unable to take a lot of time away from work.

The flexibility of our MBA lets you balance study with the other commitments in your life. Whether you are on the move, on an inflexible business schedule or simply unable to take a lot of time away from work, the Henley MBA means you can study in your own time and at any location. It is a proven blend of workshops, teamwork, online and offline self-study.

The Henley MBA has immediate application back in your workplace. The knowledge and skills you'll learn from our practical, integrated MBA curriculum develops your capability to think and behave strategically. The Henley MBA lets you contribute value to your employer immediately.

Assignments are based on live organisational issues. Many employers agree that this alone is worth the programme fees.

Programme schedule

To get you off to the best possible start, the Henley MBA begins with a compulsory workshop. These, and the other workshops, cover:

- Ongoing review of your personal development plans
- Interactive and challenging approaches to learning
- Preparation for your assignments and exams
- Formation and maintenance of learning teams

Workshops are built into the programme schedule and complement the average 12-15 hours per week of study over the two and a half years of the programme.
